HIRINGS, PROMOTIONS, BOARD MEMBERS AND SPECIAL ANNOUNCEMENTS IN SAN DIEGO

## CONSTRUCTION

New Hires

**Norman Yang**

**Tim Mort**

**Andrew Wallace**

**Melissa Norlund**

**BNB** is excited to announce **Norman Yang** as a Senior Project Manager in our San Diego office. With over a decade in the construction industry, Norman has worked in project management on numerous large-scale projects ranging from office TIs to high-rise residential and hotels. In addition, Norman led a special projects division where he successfully managed upwards of 27 unique projects at any given time from design review start to close-out. Norman has a degree in Business Operations and Architectural studies from Brown University in Providence, Rhode Island.

**BNB** welcomes **Tim Mort** as a Project Manager in our San Diego office. Tim brings over a decade of experience in the construction industry and a Bachelor of Science in Civil Engineering from Santa Clara University in Santa Clara, California. He has a diverse portfolio of experience including large-scale ground-up hospitals, hotels, cGMP facilities, lab & office buildouts, and office TIs for large tech clients.

**BNB** is happy to announce the arrival of **Andrew Wallace** as Project Manager in our San Diego office. Andrew has spent a decade in the construction industry with

an emphasis on mission-critical builds. He has a Bachelor of Science in Building Construction Management from Perdue University in West Lafayette, Indianapolis. Andrew's portfolio of experience includes including large-scale ground-up hospitals, hospitality, cGMP facilities, lab & office buildouts, and office TIs for large tech clients.

**BNB** is delighted to announce the arrival of **Melissa Norlund** as a Project Manager for our Self-Perform Concrete team in our San Diego office. Melissa brings over a decade of experience in the construction industry as well as a background in structural engineering. Her knowledge of structural concrete spans both design and construction. Melissa's last 5 years in the construction industry give her a unique ability to understand design requirements as well as the constructability requirements of each project. She has managed concrete projects ranging from \$100k to over \$10M including new ground-up construction, retrofits, and TIs. Melissa's experience in project types include Life Science, Healthcare, Office/Lab spaces, parking structures, K-12, and Advanced Technology.
